Subject: FW: PCBs: Former Pechiney Cast Plate Facility, Vernon, California - USEPA Amendments to PCB Cleanup Approvals
02_04_2014_EPA_76161c_Pechiney_Approval_Amendment_.pdf
Pechiney 3200 Fruitland Ave.

Dear Mr. Grossberg:

Thank you for your message, attached, about deeper soils and concrete at the Pechiney site in Vernon, California found to be contaminated with polychlorinated biphenyls (PCBs) at percent levels during underground demolition.

On February 6, 2014, we talked about the above matter. The attached USEPA Region 9 (USEPA) February 4, 2014 letter modifies USEPA's previous Toxic Substances Control Act PCB cleanup approvals for the Pechiney site. I believe the attached letter contains information responsive to your questions. USEPA's modifications in that letter describe the approach that Pechiney/AMEC will follow to clean up or leave in place unexpected PCB contamination. Such contamination may be encountered during Pechiney/AMEC's below ground demolition.

If after reading the attached letter you have additional questions, please call me at 415.972.3360.

Thank you for your courtesies and inquiry.

Sincerely,

Carmen D. Santos

Subject: PCBs: Former Pechiney Cast Plate Facility, Vernon, California - USEPA Amendments to PCB Cleanup Approvals

Dear Mr. William Adams:

ED_002036_00002116-00001

Thank you for the opportunity to being of assistance during Pechiney's cleanup of polychlorinated biphenyls (PCBs) at the former Pechiney Cast Plate facility in Vernon, California.

AMEC has proposed some changes to USEPA Region 9's approvals issued to Pechiney on July 2, 2010 and July 1, 2011 for cleanup of PCBs at the Pechiney site. Our letter, attached, is modifying those approvals consistent with 40 CFR 761.61(c).

Please call me or have AMEC call me if you or AMEC have any questions concerning the attached PCB cleanup approval amendment.

Thank you for your courtesies.

Sincerely,

Carmen D. Santos
